

WORKSHOP ON
"EFFECTIVE TEACHING FOR UNIVERSITY AND COLLEGE LECTURERS"

Date: 22 December

Venue: Southern Sun

Attendees: 40

BOOK EARLY! LIMITED PLACES!

Introduction

Effective teaching is instruction that leads to effective learning, which in turn means thorough and lasting acquisition of the knowledge, skills, and values the lecturer or the institution, has set out to impart. Students need to initiate learning and maintain engagement during learning in their development as independent lifelong learners. Thus, the role of lecturers has changed to developing the skills and tools to assist students in critically analysing the plethora of information available.

Workshop Objectives

This workshop is designed to help university and college lecturers to become effective teachers in their fields of expertise. The workshop will explore student engagement strategies such as blended learning, flipped class room, eLearning; learning curriculum & objectives; effective lectures, tutorials, practicals, field work & assessment; student evaluation of learning; community of practice; graduate attributes and accreditation; institutional support for teaching & learning; current and future development in teaching and learning technologies.

Who should attend?

University and college lecturers, administration staff, and anyone interested in teaching and learning at higher education institutions.

Facilitator:

Professor Emmanuel Chanda, University of Adelaide, Australia

Workshop Fee:

K3,000 per participant
